### Getting Bids and Selecting a Painting Contractor

When comparing bids, be certain the bids are for comparable work - the same job and using the same quality materials. If the work isn't comparable, you can't accurately compare bids. The lowest bid may not be your best choice and will usually cost you much more in the long run.

The most qualified painter will have "Y" circled for each statement.      Dav-Bar, Ltd.      Contractor 2      Contractor 3
